

SSE online training 2021

BASIC SEATING PRINCIPLES 2: PRESCRIPTION

CPD accredited (HPCSA), 2 CEU TBC*
1 online session + self-study materials
R350

DATES AVAILABLE

- **Workshop 1: Wednesday 9 June 2021 @17:00 - 19:00**
- **Workshop 2: Tuesday 12 October @17:00 - 19:00**

***NOTE:** registration closes 24 hours prior to start of training*

**** Certificates will be issued as soon as accreditation number is confirmed***

- **WHO:** Qualified professionals who are completely new to seating practice or have experience and would like to refresh their knowledge on Prescription: including occupational therapy, orthotists and prosthetists; speech and language therapy and physiotherapy. Non-health professionals who work in the field of disability or would like to understand the prescription fundamentals of seating are also welcome.
- **WHY:** Seating is a specialized skill requiring postgraduate training. Current curriculums at universities do not prepare students fully for the realities of wheelchair service provision and so most knowledge and skills come at a postgraduate level. Many institutions require seating skills or offer seating services and so having the basic knowledge in order to practice these skills is very useful.
- **WHAT:** Participation in this program will enable participants to respond appropriately to much-needed interventions in the seating service domain (whether private or public) and to provide channels for development and remote support in seating. Participants will have opportunities to apply theory in different contexts and will be equipped with skills to ensure appropriate clinical reasoning and problem-solving. They will be familiarized with the wheelchair Prescription principles, as well as all the devices that Shonaquip manufactures, including comprehensive adjustments and all components.
